INCOSE INTERNATIONAL WORKSHOP RECAP

The INCOSE International Workshop (IW) 2025 recently took place from February 1 to 4 in Seville, Spain, and online. This annual event is a premier gathering for systems engineers to collaboratively advance the discipline. Unlike traditional conferences, the IW focuses on working sessions which allows participants to engage deeply in topics such as Model-Based Systems Engineering (MBSE), Systems Thinking, Sustainability, Requirements, and so many more. The hybrid format facilitated both in-person and virtual participation, fostering inclusive collaboration across the global systems engineering community. If you are interested in attending a conference, consider attending the INCOSE International Symposium (IS).

The 35th Annual INCOSE International Symposium (IS) is scheduled for July 26 to 31, 2025, in Ottawa, Canada, at the Roger Centre Ottawa. This symposium serves as a premier international forum for systems engineering, offering a diversified program that includes keynotes, tutorials, presentations, and panels across various application domains. Attendees will have opportunities to expand their professional networks, learn from thought leaders, and contribute to the advancement of the field. The event will also be hybrid, accommodating both in-person and virtual participants.

For more information and to register for the upcoming symposium, please visit the [INCOSE IS 2025](#).
